

SmartCAM® Autodesk Inventor® Connection™ v2015

Experience Powerful, Flexible, Affordable...SmartCAM

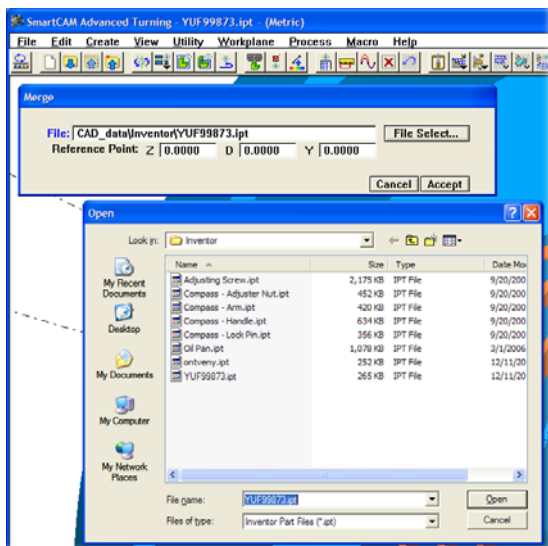

Provides
Seamlessly Integrated,
Native-Format
Data Translation for
Autodesk Inventor
Files

SmartCAM Inventor Connection

SmartCAM Inventor Connection™ is an optional native-format data translator available for purchase. When installed on a system with SmartCAM®, it allows users to read Autodesk® Inventor® part files directly into SmartCAM without the need to use intermediate file formats such as STEP, IGES or SAT Solid.

Ease of Use

Once installed, the SmartCAM Inventor Connection is accessed directly via the File Open and Merge dialog boxes.

SmartCAM Inventor Connection Features

- **Reads .IPT Files**
Reads Autodesk Inventor .IPT part files from Version 6 through Inventor 2015.
- **Drag and Drop**
Your Autodesk Inventor files can be opened directly in your SmartCAM application using drag and drop.
- **Part Model Units**
Supports the metric or inch units of the solid model file.
